William Theodor Lehn-Schiøler, 26

St. Kannikestræde 2, 1169 Kbh. K, (+45) 30123757, willehn@gmail.com

EXPERIENCE

BrainCapture, Lyngby - *Industrial PhD Student*

SEPTEMBER 2025 - TODAY

Working on project titles

BrainCapture, Lyngby - *Data Scientist*

JANUARY 2021 - AUGUST 2025

1. Lead the design and development of **large-scale machine learning systems** for EEG signal analysis, utilizing **Python** and advanced ML frameworks to bridge diagnostic gaps in resource-limited areas.
2. Drove **research-to-production integration** by translating complex ML prototypes into robust, optimized features within the core product, demonstrating strong **software engineering expertise**.
3. Authored and co-authored multiple peer-reviewed publications (including papers presented at **IEEE MLSP** and **Epileptic Disorders**), providing a **track record in academic research**.
4. Applied advanced **quantitative approaches** (e.g., explainable AI/concept-based explainability) to enhance model transparency and address analytical challenges in medical device data.

DIS, Copenhagen - *External Lecturer*

JANUARY 2024 - JUNE 2024

DTU Compute, Lyngby - *Teaching Assistant*

FEBRUARY 2022 - DECEMBER 2023

02463 Active ML, 02464 Human Cognition and AI, and 02471 ML for Signal Processing

Communicated complex technical material across multiple domains (Active ML, Human Cognition and AI) to undergraduate students, demonstrating the ability to convey **complex research in a clear, precise, and actionable manner**.

VOLUNTEER EXPERIENCE

Copenhagen MedTech, Copenhagen - *Board Member & Chairman*

SEPTEMBER 2022 - DECEMBER 2024

Technical University Hospital, Copenhagen - *Student Ambassador*

April 2026 - PRESENT

EDUCATION

Technical University of Denmark, Master's Degree

SEPTEMBER 2022 - DECEMBER 2024

MSc Mathematical Modelling and Computing

Technical University of Denmark, Bachelor's Degree

SEPTEMBER 2019 - JUNE 2022

BSc Artificial Intelligence and Data

École Polytechnique - Université Paris-Saclay, Exchange Semester

SEPTEMBER 2021 - JANUARY 2022

Double Majeure Mathématiques & Informatique

PUBLICATIONS

See my Google Scholar which includes:

1. Concept-based explainability for an EEG transformer model,
   2023 IEEE International Workshop on Machine Learning for Signal Processing.
2. Low-cost portable EEG device for bridging the diagnostic gap in resource-limited areas,
   Epileptic Disorders - July 2024.
3. SPEED: Scalable preprocessing of EEG data for self-supervised learning,
   2024 IEEE International Workshop on Machine Learning for Signal Processing.
